

# ATLANTA GAS BRAAI

The Atlanta 4 Burner is designed for effortless outdoor cooking, giving you plenty of space to grill while adding the convenience of a dedicated side burner for sauces, sides and pot cooking.
With 4 powerful burners across the main grilling area, you can easily prepare a variety of foods at once —

The integrated side burner provides the perfect space for heating a pot, simmering sauces or preparing your favourite accompaniments without leaving the braai.

Practicality is built into every detail. The Atlanta features an integrated bottle opener and a spacious storage compartment for a 9kg gas bottle, keeping your cooking area neat and organised. A protective canvas cover is also included to help keep your braai protected when not in use.

| UNIT / MODEL | MEASUREMENTS (MM) | | | | | | | | |
